Safety Tip Never Ignore The Smell of Propane

If you think you smell even a faint scent of gas, or if a friend or neighbor reports the smell of gas in or near your home please call us immediately. We have someone on call 24/7/365! We will come out and perform a leak check for **FREE** and our technician will be able to provide you an estimate should you need any repairs completed.

Remember our slogan: "Where our Service is Your Safety"

**Remember!!
New customer referrals receive
a \$50 credit on their account!**

Equal Payment Plan (EPP)

Looking for a simple, once monthly, automatic withdraw payment plan for propane? Look no further! With our EPP plan we will determine your annual usage, set you up with a fixed rate, and deliver propane when you need it most! The yearly EPP contracts are from April 1, 2022 to March 31, 2023. Contact our office by March 18, 2022 for more information and to sign up.

Out of Gas Fee

If your tank runs out of propane and you are not signed up as a Route Customer there will be a \$45 out of gas fee. Additionally, if this is after hours, or we do not have a driver in your area there will be an emergency delivery fee of \$45-\$75 depending on your location. Remember: keep an eye on your propane levels and provide adequate notice for delivery.

Employee Spotlight

Haley joined the Mountain West Propane team as a Customer Service Representative in the Craig Office at the end of August 2021. With the majority of her background being in animal care, the propane business is a new professional venture for her. Haley moved to Craig Colorado at the end of 2020, she loves the people, the laid back environment and wildlife. When she isn't at work

you can find her at her own little farm tending to her many animals; dogs, cats, chickens, goats, horses and even reptiles! Come on down to the office to have your propane cylinders filled and share your favorite hiking areas in Moffat or Routt county with her!

Propane Cylinders

Stop by the office anytime during normal business hours:

Monday-Friday 8am -4:30pm (Closed for lunch from 12:30pm to 1pm) and Haley would be happy to fill your cylinders for you! Does your cylinder need to be recertified? If it's been longer then 12 years from the manufactured date or 5 years since its last visual inspection, your cylinder will need a recertification as well. This too can be done when you come by to fill them up. Questions? Give us a Call 970-824-0374
